Speer's Port Grape Wine

Nine Years Old,

Burgundy Eight Years Old, and
Claret 16 Years Old.

Extensive Wine Cellars.

Storing, Ageing and Racking Wine.

A wine made one year and sold the next is not a proper wine for invalids; to get rid of its coarse and injurious elements requires years for it to lay in wood casks, and by frequent drawing off from its gross sediment, or the coarse parts it becomes rich and mellow and valuable for invalids. It is sudorific, diuretic and blood making from the iron in the soil of the Speer vineyards in Northern N. J.

The principal varieties are the Port, Burgundy, Sherry and Claret and the Climax brandy. All these wines when stored for years and drawn off from time to time in fresh fumigated casks become vastly superior products and necessarily are more expensive. This is why Speer's wines and Brandy are more costly and so far superior to the California wines. They are **absolutely pure; unexcelled by any in the world.** Speer's wines are ordered by wealthy and refined families in Europe where they are prescribed by physicians and are esteemed for their superiority, velvety roundness, full body and refined flavor. The efficacy of these wines is wonderful. It has been a study and a pride during Mr. Speer's life to produce a wine of the highest grade of perfection—not so much to make money as to excel in getting a wine of the richest character. He has spared no labor nor expense in bringing his vineyards and wines up to the above high standard of excellence. The Climax ★★ ★ Brandy twenty years old is equal to the finest French brands.

To be had of Druggists and Grocers who sell high class wines.

GRAPE HARVEST IN PORTUGAL.

THE PORT GRAPES CARRIED TO THE TREADING VATS.

Scene at the Vineyards of Boa Visto, valley of the Douro: Women cut the bunches of grapes into small baskets, carry them a short distance and fill large baskets holding near 100 pounds. Then men with sheepskins thrown over their backs, and plaited straw knots on their heads, shoulder the baskets and move off in single file down the rugged winding paths and flights of steps to large vats, where the grapes are mashed for wine. The soil containing a large amount of iron.

Speer's Port Grape and Burgundy Wines

are made from the same grapes grown on an eastern mountain slope in Passaic valley, New Jersey, the soil also abounding in iron produces **the real Blood-making, Life-preserving Wines of the World**—the old, original Port wine grape of Portugal. No other wines equal these for invalids, weakly persons and the aged. None put in market until nine years old. **FOR SALE BY Druggists and Grocers.**

Also the P. J. Sherry, Burgundy, Socialite, Claret vin. 1881, and Climax Brandy vin. 1878, all used extensively in Hospitals and among the Medical faculty as the best to be obtained. The unfermented Grape Juice is extensively used in New York churches for communion service.

SCENE IN A PORTUGAL WINERY,

In the mountains, at the Quinto do Sexio, Portugal, a famous Port Wine district where the custom of treading the grapes for Port Wine is still in vogue. From ten to a dozen men or women for each gang in turn continue the treading, day and night, during the four or five weeks vintage. Some of the treading vats are large enough for three separate rows of ten men each, who with their white breeches well tucked up, their arms on each other's shoulders, raise and tread their feet alternately, with song and shouts to keep the lazier ones up to the work, and a band with string instruments enlivens the hours.

Speer, of New Jersey, Uses Rollers instead of Feet.

It is from this district the vines were imported over forty years ago that now fill the vineyards of the Speer Wine Co., at Passaic.

At Passaic the same kind of grapes are crushed between large rollers of rubber, revolved by steam. This is the only place in this country where the real genuine Port Wine is made from the Oporto grape—and they are grown right in SPEER'S VINEYARDS.

These vineyards extend over $\frac{1}{3}$ of a mile along one of the Main avenues of Passaic, and comprise fifty six acres. The soil being rich in iron makes the wine most valuable for Medical use.

SPEER'S WINES

Are well known to be of the highest character, the oldest and most refined Wines in America, equal if not superior to any wines in the world. They consist of Port, Sherry, Burgundy, Claret, Sauterne Wines, and ★★★ Climax Brandy. Mr. Speer has some Wine in his cellars that he made over thirty eight years ago. All of Speer's Wines and Brandy are very old, rich, well rounded, soft and delicate. Every family should have a bottle or two of each variety of Speer's Wines and Brandy always in the home, for sickness or family use.

for their excellent effect upon the system when used by invalids, the weakly and aged persons and in general family use. Northern New Jersey climate, and soil abounding in iron is just adapted for this grape for Port wine. It is the same kind of soil as in Portugal. Speer's winery and vineyards are the only Port grape vineyards in the United States; only vineyards that cultivate the real Port wine grape of Portugal; while other wines or mixtures called port are made without a single Oporto grape in them. Mr. Speer is the first and only one who imported the vines and acclimated the real **Port wine grape vines of Portugal**. He spent thousands of dollars as a hobby to see what he could do toward acclimating these Portugal vines here. It took eight years for them to become acclimated before Mr. Speer got a single grape; during those years all died except about eight hundred vines, when those began to grow vigorous and bear fruit; from these, layers were made for new vines. The vineyards now cover fifty six acres. It has proven a success. The grapes are allowed to hang on the vines until they begin to raisin, when they have parted with some of the water and are rich in sugar; and the wine made from Port wine grapes is the only real genuine Port wine made in America. It is by far **THE** wine for weakly persons, the aged and for evening entertainments.

The Chateau contains a limited supply of Private Stock Port nineteen years old, besides Burgundy and Claret of nearly the same age. The Speer Port, however, nine years old, as well as the Burgundy, Claret and Sherry, are high class wines. The ★ ★ ★ Climax Brandy is 18 years old. All are preferred where known by the Medical profession as superior to any that can be had, for

4 US AFTERBATH

It makes the skin white and soft, removes pimples and dandruff and all eruptions from the person.

For the Head and Hair and Body.

The body and limbs of every child should be rubbed with 4 Us after every bath. Just enough dropped in the palm of the hand to rub over every part of the surface of a child, once a day will keep the skin soft and white, the pores free from getting clogged with impurity passing out from the system. A teaspoon full is sufficient to moisten the cuticle (skin covering) of a grown person. The effect is wonderful: pimples on the body and face are entirely removed by a few applications of the 4 Us. Druggists sell it.

In every respect it is A WINE TO BE RELIED ON.

Speer's Port & Burgundy Wine.

The Finest Wine in the world from his 56 Acres of Vineyards, where the soil is rich in iron, imparting it to the Oporto grape and the grape to the Wine—causes the dark, deep rich color, and blood-making property of this life-giving Wine. **The Iron in it.** This is the Wine that beats the world in its valuable medicinal qualities, for family use and evening parties; it is especially beneficial for females, invalids and aged persons.

The Port Wine is nine years old and the Burgundy, a rich dry wine eight years old.

The Claret equals the finest French product.

Druggists and Grocers Sell it.

ALFRED SPEER,

THE ORIGINAL

Port Grape Wine Producer in America.

The first native wine sold and used in San Francisco and Sacramento was from Speer's Passaic, N. J., vineyards, was shipped around Cape Horn before there was any railroad to California, and are now being used by physicians and first families there as the richest and best wine to be had

The juice of the Portugal Port Wine grape grown in N. J. is thick and rich same as the juice of pears and other fruits grown here. From California pears you can squeeze water as from a sponge; so with all fruits grown in California; while those grown in New Jersey are solid in substance—less juice but thick and richer. The New Jersey apples, for instance, make a cider that was always popular the world over. If you want a wine for sickness or for entertainments don't take cheap, watery wines but choose a first class old, full bodied, high grade wine from Speer's Passaic vineyards. Sold by Druggists.
